Bringing its unique approach to delivering conferences, Uxolo Global 2022: Development & Impact Finance - The HYBRID edition, is set to be an innovative and vitally important networking event in development finance. Join the industry on 11th October in The Hague as we theorise how the industry can **mobilise large-scale private capital investment in climate, infrastructure and development finance projects**.

Mobilising private capital into global development projects supporting the **17 Sustainable Development Goals (SDGs)** is of course a key priority for the MDBs & DFIs; and to help facilitate these blended finance structures we are delighted to be partnering with the **Global Impact Investing Network's GIIN Investor Forum**, which is taking place on the 12th & 13th October (after Uxolo Global), also in The Hague.

The partnership of these two events side by side is the perfect way to capitalise on networking opportunities between public and private capital during this period; with Uxolo bringing public institutions and The GIIN bringing private impact investors to the blended finance party. It's a match made in heaven, and we cannot wait for you to be a part of it!

WHO WILL WE MAKE SURE YOU MEET?

- ★ DEVELOPMENT FINANCE INSTITUTIONS
- ★ MULTILATERAL DEVELOPMENT BANKS

UXOLO: WHO WE ARE AND WHAT WE DO

Uxolo Development Finance is a team of dedicated financial media professionals with a mission to support the development and impact finance communities to further facilitate financings into projects that promote the United Nations' 17 Sustainable Development Goals (SDGs).

WE PROMISE TO:

- Stay focused and agile
- Plan and deliver top class events, roundtables and business meetings
- Always execute stand out, opinion-led news pieces and exclusive daily news
- Provide you with a trusted network plus relevant project data and intelligence that can assist in mitigating risk, launching new projects and supporting the whole delivery cycle
- Continue to promote the 17 UN Sustainable Development Goals (SDGs)

The event offered very insightful panels and it was a fantastic networking opportunity for investors from various backgrounds. Working for a DFI I found it particularly interesting to hear about the initiatives and business models of private capital investors.
