This event is a must for those with an ambition to be part of the infrastructure scene in the Region. An opportunity to discuss experiences and expectations from key players and to network across the value chain in one place was great value for us.

Armando Gomez
X-ELIO

The Proximo LatAm event is always a great way to stay connected to the world of infrastructure finance that matters for Latin America. The team at Proximo ensures a professional but fun atmosphere that facilitates close networking for relaxed business development. I'll be sure to return.

Rodrigo Barfield
Long Light Energy

Another great forum organized by Proximo with the key players in the infrastructure/energy space. Great place to connect with clients, financial institutions, developers and sponsors across infra, energy, transport and telecom and to hear different perspectives on the most relevant market trends from the key experts in the region.

Pedro Aparcio
Goldman Sachs

Great event, very well organized with interesting panels. We managed to meet with many key banks in Latam as well as institutional investors. Will repeat next year.
